

**RIDG-U-RAK**

**Pick Modules  
for Order Fulfillment  
and Storage Operations**

# High Throughput Designed for Your Specific Needs

Ridg-U-Rak's modular order picking systems can be deployed in solutions tailored to your product delivery requirements. Pallet, case, carton and pick-to-light components can be utilized in Push-bak, gravity flow 100% selective and other storage methods along with flooring and decking selections. This provides the ultimate in productivity and space utilization.

Ridg-U-Rak's systems engineers will perform a logistics audit of your order fulfillment needs and provide a complete, cost effective proposal for your consideration. Facilities are custom designed and tailored to meet your specific needs. From design through system integration through complete installation. Ridg-U-Rak can provide turnkey responsibility for your project.

## No Rust at this Paint Company

A combination of flow rack, Push-bak and wire decked 100% selective rack over pick tunnels lets this major paint company handle 40% of all their nationwide product shipment from a single facility.

# Increased Productivity for Open

Multiple SKU's in a variety of lot size requirements are easily handled by the interface of storage methods. Slower moving items in pallet loads are fed into the system from 100% selective or drive-in rack. Faster moving pallet loads are fed from Push-bak high density storage lanes that provide over 90% utilization of storage space. Gravity flow pick modules deliver carton lots and pick-to-light items to the order fulfillment lines. No wasted space. No wasted movement. No wasted time. Every cubic foot of valuable space works for you.

## Prescription for Success

Ridg-U-Rak provides a multiple level, highly concentrated order picking system for one of the nations leading pharmaceutical manufacturers. Conveyors carry totes through upper level of work

platform picking stations down to floor level picking lane and shipping. The entire product line is accessible and Ridg-U-Rak gravity flow storage lanes insure there are no stock outages.

# Operations and Fulfillment Systems

## Hats Off to Efficiency

To quickly and accurately pick orders for retail outlets, the nation's largest hat maker moves product through a custom designed Ridg-U-Rak system.

## Massive Retailer/Mass Distribution

Catalog fulfillment sales for the country's leading mass merchandiser are expedited through a comprehensive multi-level distribution center. Ridg-U-Rak pick modules backed by integral supply storage systems keep product moving and deliveries on time.

## Other Ridg-U-Rak Storage Systems

### High Density Storage Systems

Ridg-U-Rak high density storage systems make maximum use of valuable floor space. Typical system designs include drive-in, push-bak, flow racks and mobile racks. Request High Density catalog for more information.

### Industrial Storage Systems
