

Riverhead Building Supply Project Profile

For over sixty years, Riverhead Building Supply has been the supplier of choice for quality-conscious builders, contractors, architects and homeowners in the Long Island and Rhode Island areas. Great service, knowledgeable full-time personnel, contractor sales representatives and a large inventory of top-quality products are the cornerstone of our building supply company.

With eleven locations throughout Long Island and Rhode Island, having proper inventory is critical to maintaining a high level of customer satisfaction. We rely on RIDG-U-RAK cantilever rack for our lumber products and their pallet rack for supplies in all our locations.

“The professionals at Ridg-U-Rak listen, then deliver solutions that work for our business. They designed cantilever and pallet rack storage systems to fit our specific needs... it's the best made racking in the industry”

Structural Cantilever Systems

Structural steel cantilever storage racks are multi-level, high-density storage systems designed to handle different types of products free from column obstruction. Cantilever offers unobstructed access for longer dimensional products, such as carpet, lumber, bar/plate stock and pipe. Cantilever racks can be decked for use with odd-sized bundles, crates or bulk items like furniture.

Features & Benefits:

- Strong and durable structural steel construction
- No aisle-side column to restricted access
- Arms are vertically adjustable on 4" centers
- Efficient use of vertical space
- Easily store materials of varying dimensions
- Columns punched on both sides for single or double sided storage
- Decking options are available
- Optional retaining poles, protective end caps and sign holders are available

Applications:

- Lumber yards and hardware stores
- Furniture storage
- Carpet storage
- Steel pipe and bar

Famous for integrity for over 70 years
